

A001-FIN-2026-Q3 / APPROVED

A-001 Cost and Financial Impact Assessment - Q3 2026

A-001 | Cooling Water Pump | Enterprise Asset Reliability Training Scenario

Document ID	A001-FIN-2026-Q3	Version	1.0
Status	APPROVED	Effective / Issue Date	2026-09-09
Owner	Finance Business Partner	Asset	A-001
Location	Utilities Area - Bay 3	Data Class	Synthetic / Training

TRAINING NOTICE: This fictional document is designed only for AI/RAG, analytics and governance training. It is not an engineering instruction and must not be used on real equipment.

1. Purpose

This synthetic assessment provides a planning-level financial view of the A-001 reliability review. Values are fictional and intentionally simplified. They support training on cost context, project risk and evidence traceability.

2. Planning Cost Range

Cost Element	Low Estimate (USD)	High Estimate (USD)	Assumption
Inspection / diagnostic support	2,500	4,500	Limited specialist review
Vendor technical support	3,000	6,000	Remote + one site-support allowance
Potential spares package	6,000	14,000	Placeholder range pending vendor confirmation
Planned maintenance labor	4,000	8,000	Training planning estimate
Contingency	2,000	5,000	For unresolved scope / logistics
Total planning range	17,500	37,500	Not an approved budget

3. Financial Risk Considerations

- The largest uncertainty is scope: the evidence does not yet establish a confirmed technical cause.
- Vendor spares and service pricing remain provisional until availability is confirmed.
- A planning estimate must not be presented as an approved purchase order or budget.
- Delays may create additional planning cost, but this document does not quantify operational loss.

4. Scenario View

Scenario	Illustrative Financial Effect	Confidence
Review closes with no additional scope	Lower end of planning range	Medium
Additional specialist support required	Mid-range cost pressure	Medium
Spare package required after qualified review	Upper-range cost pressure	Low

5. Financial Controls

- Separate cost estimate, funding decision, procurement commitment and actual spend.
- Reference the source date and assumptions whenever the estimate is retrieved by RAG.
- Do not infer technical necessity from financial provisioning.

6. Evidence Traceability

Financial Assumption	Supporting / Related Source
Inspection activity exists	A001-DIR-2026-09 / WO-2026-0817
Vendor support may be required	A001-VSR-2026-09
Project still contains unresolved dependencies	A001-PRA-2026-09 / A001-MPR-2026-09
